

# RIGGING ADVISORY CIRCULAR

Issue Date: 01 July 1997

RAC No. 225 Rev. E

SUBJECT: REGISTER OF MISSING EQUIPMENT

STATUS: ADVISORY

BACKGROUND: The March 1995 meeting of the Board directed that a Rigging Advisory Circular listing stolen gear be published and revised regularly.

APF POLICY: In the event that parachute equipment is stolen or misplaced the following details should be provided to the APF by phone, fax or post:

Name & Address of the owner  
Brand, Model and Serial Number, Date of Manufacture of:  
Main Canopy  
Reserve Canopy  
Harness/Container  
Automatic Activation Device  
Location & Date equipment went missing  
Colours and distinguishing features

The APF will publish the Register of Missing Equipment by **Model and Serial Number only** and revise this RAC whenever additions or deletions are necessary. The **Ref No.** shows items that were together at the time of disappearance. A more detailed description of each, with colours, condition, etc is maintained on the APF's database.

To facilitate the recovery it is recommended that owners record details of their equipment separate to the packing card accompanying the gear so that complete details can be supplied to the APF, if necessary.

Members should report missing equipment to the Police to aid possible recovery by civil means.

Where missing equipment is subsequently recovered it shall be reported to the APF Secretariat.

COMPLIANCE DATE: Not applicable

AUTHORITY: APF Board, March 1995

DISTRIBUTION: All APF Packers  
All NZPF Parachute Technicians
