MANUFACTURER

ADVISORY:

The above parachutes may be converted for use with four risers.

The conversion must be performed by a Rigger B or foreign equivalent.

Slide lines one-by-one and in order from one existing separable link onto two No.6 Maillon Rapide Links, with equal number of lines on both links. Repeat with remaining connector link.

Check for proper rigging and direction of flight.

Note that risers may need to be modified if not compatible with rapide links.

AUTHORITY: Pioneer Parachute Co.

DISTRIBUTION: PMM Purchaser
