## **SERVICE BULLETIN**

Title : Reserve Canopy Control Titre: Contrôle des voilures de secours BS 25-63-46 Date: 12/12/2008

Page 1/1

Block 1	Technical Background		
a) Applicability :		: <i>F</i>	All Parachutes de France's reserve canopies.
b) F	Reason	: (	Control of reserve canopies before next packing.
c) [	Description	t	During the packing of a reserve canopy (training parachute in service in the French Army), the rigger observed that a ring used to stop the riser was missing.
		_	All available canopies of the same model were controlled by French Army.
		_	Control process was audited on production plant.
			All canopies in supplier stock were controlled.
			Considering that no new case was found, it was concluded it was a particular and single case.
d) (	Compliance	(	As a precaution, at the next periodic inspection/packing of the reserve all types), it is recommended to verify that all slider stops are present and to mention this control on canopy official documents.
e) A	Approval		The technical content of this service bulletin has been approved by Aerazur according to Part 21.
f) L	abour	: 8	Senior or master rigger or equivalent according to the local regulation.
g) V	Weight and balance	: N	lon applicable.
h) F	Reference document	: N	lon applicable.
i) C	Concerned publication	: \	Jser manual of concerned canopy.
j) l	nterchangeability	: 1	lon applicable.
